Jewish National Fund

FACULTY FELLOWSHIP PROGRAM IN ISRAEL

Each participant is introduced to or paired with Israeli counterparts in their field of study, leading to academic exchange. Collaboration, shared research, teaching concepts, and values are a great part of this component with the objective that the participants bring these methods to their respective campuses at the close of the program. The trip includes extensive touring and visits to historical sites in Israel, as well as exposure to Israel’s dynamic technological and scientific advancements, industry, culture and life. Participants hear from speakers from all walks of Israeli society and join in debate on a variety of topics—academic, political and economic. The program goes beyond the confines of conflict and demonstrates how Israel makes the world a better place.

GOALS

∙ Meet with Israeli counterparts to initiate academic exchange, collaborations, and joint research studies
∙ Facilitate constructive dialogue about Israel and the Middle East across college campuses
∙ Expose Fellows to Israel beyond what they may know or have seen in the media
∙ Fellows participate in Positively Israel programming on campus

ELIGIBILITY

Faculty Fellowship Program in Israel is a fully-paid intensive program to Israel for full-time academics at a recognized university/learning institution
